| APPROBATION* | Santé & Sécurité |

Description
LOCTITE® SI 5140 is a translucent to milky white, viscous, alkoxy silicone potting compound and sealant liquid. The product is suitable for various electronic, military and industrial components. It resists weathering, moisture and ozone. LOCTITE® SI 5140 is also non-corrosive and self-leveling, and enhances the load-bearing and shock-absorbing characteristics of the bond area.

Avantages
Can be used for potting, coating or sealing
Resists weathering, moisture and ozone
Non-corrosive
Self-leveling
Cures by room temperature vulcanizing
Enhances load-bearing and shock-absorbing characteristics of the bond

Caractéristiques
Silicone translucent/milky white potting compound and sealant. Retains properties even in severe environments.
